

NARRATIVE
RESIDENTIAL SEWER CONNECTIONS TO THE
MSA INTERCEPTOR SEWER SYSTEM
(42" & 36" Diameter RCP Pipe)

- The method of tapping the pipe must be watertight with no protrusion into the RCP.
- Holes broken into the pipe by hammer with grouted pipes are not acceptable.
- An acceptable method is to core a smooth hole and insert a custom compression fitting like "Inserta-Tee" (see attached). A local supplier is Brent Materials.
- The best place is between 12 and 2 o'clock with fittings on the 4" lateral pipe to level out.
- Check with the Township on which type of PVC pipe (SDR 35/26 or Sch 40) is acceptable for the lateral and make sure to select the appropriate Inserta-Tee.
- MSA must be notified in advance of construction so the Authority can inspect the connection as it is made.

INSERTA TEE® MANIFOLD ADAPTORS FIT ANY MAINLINE OR STRUCTURE

AIR-TESTABLE, WATERTIGHT AND VERSATILE

INSERTA TEE is a three piece service connection consisting of a PVC Hub, Rubber Sleeve and Stainless Steel Band. INSERTA TEE is compression fit into the cored wall of a mainline and requires no special tooling. INSERTA TEES are designed to connect 2" (51 mm) through 30" (750 mm) services to all known solidwall, profile, closed profile and corrugated pipe manufactured today.

INSERTA TEE allows for tapping of existing lines without disturbing the bedding. It eliminates glues, epoxies, grout and awkward gaskets and the need to retighten bands around the mainline.

INSERTA TEE is designed to match the internal radius of any pipe and services can be connected where needed. It allows for easier grading of the mainline. It also greatly reduces costs by reducing labor hours and pipe materials. Hole saws are available for sale for all sizes of INSERTA TEES. The use of installation methods or hole saws not purchased from Inserta Fittings will void the performance warranty of the product.

Applications:

- Sanitary Sewers
- Pipe Bursting (HDPE/PVC)
- Fold-and-Formed Products
- Manholes
- Drainage
- Catch Basins
- Storm Sewers
- Sliplining
- Cured-In-Place Products
- Wet Wells
- Irrigation
- Electrical Vaults
