Chairman Rattner questioned about the correspondence regarding the Hopatcong State Park proposed amendment to the Sussex County WQMP and asked if this was the same plan that was submitted in past years. Mrs. Michetti explained that the Park wanted to construct an additional bathroom outside of the wastewater management plan so they needed to add extra square feet to the wastewater management plan for the project, which is why a Statement of Consent is being requested by the NJDEP Office of Resource Development. Chairman Rattner asked about the hookup to the MSA interceptor. Mrs. Michetti explained further about the project and that the hookup would be the Township's responsibility. Chairman Rattner wanted to know if the MSA should request escrow from the State for the MSA's engineering inspections. Mr. Schwab mentioned about past concerns with odor problems during seasonal low flows. Mrs. Michetti also explained about insurance and risk management concerns. She suggested that the MSA's files should be reviewed to see where the project was left off with the MSA. Mr. McNeilly suggested that Mr. Scheri review the project and make a recommendation to the MSA for consent to the project. An escrow should be requested for the engineering review and legal fees.

Chairman Rattner asked about the correspondence from the NJDOT regarding the maintenance roadway repair in Byram Township. He questioned the repaving and resetting of the MSA's sewer facilities that was stated in the letter. Mr. Schilling explained that it was resetting of manholes, which is common practice.

Chairman Rattner also inquired about the OPRA request. Mr. Dwyer briefly explained about the request and the MSA's response to the request.

The following correspondence for the month of April was received and filed on a motion offered by Mr. McNeilly, seconded by Mr. Schwab and the affirmative vote of members present.

Mr. Schilling noted that he had some updates regarding the treatment plant in his monthly report. He asked if any of the commissioners had any questions. A photo of the Secondary Clarifier No. 3 that Mr. Schilling e-mailed to the Engineering Committee was discussed. The photo showed a considerable amount of blockage with rags and debris. The blockage took the secondary clarifier off-line. On Monday the clarifier would be put back online.

Mr. McNeilly commended Mr. Schilling for actively pursuing to fill the two summer positions so early in the year. Chairman Ratter asked about the job descriptions for the positions. Mr. Schilling indicated that he had sent an outline of the job descriptions to the Personnel Committee. Mrs. Michetti asked about the two positions and if one would be for the office and one for outside maintenance. Mr. Schilling said that both positions were going to be for very basic maintenance work for the facility involving routine grounds keeping, which would include painting and weed whacking. Mr. Schilling also added that he was hoping to hire young people from the surrounding communities for the positions and asked the commissioners to let him know if they knew anyone they would like to recommend. The positions would be for ten weeks during the summer.

The Director's Report, and Repairs and Maintenance Report, for the month of April were accepted on a motion offered by Mr. McNeilly, seconded by Mr. Schwab and the affirmative vote of members present.

Mr. Scheri reported on the engineering review of the WQMP Amendment for the ITC East in Block 106, Lot 2 in Mount Olive Township. Based upon his review, the property is included in the future sewer service area mapping originally prepared by the Authority in 1993. On that basis, he recommended that the Authority adopt the Statement of Consent Resolution No. 17-20 that was listed on the meeting agenda.

Mr. Scheri also reported that Mott MacDonald was preparing the contract documents for the replacement and rehabilitation of the gates in Aeration Basin No. 4, Contract No. 260. He had copies of the plans and specifications that were currently being reviewed by Mr. Dwyer. He recommended that the commissioners consider advertising for public bids as soon as possible. Mr. Schwab asked what the amount of the engineer's estimate was. Mr. Scheri responded approximately \$75,000.00. The date to receive bids was discussed. The bid date on Resolution No. 17-19 was June 1st. The date should be scheduled as soon as possible, so the project could be awarded at the MSA's May meeting. Mr. Dwyer indicated that he was in the process of reviewing the bid documents. He had some questions regarding the insurance requirements. The insurance requirements were extensive. The documents would need to be sent to the MSA's Risk Manager for review. Resolution No. 17-19 on the meeting agenda, authorizing Mr. Schilling to receive bids, would be revised to state "at the earliest date possible, subject to internal review", so that the bids could be received before the MSA's May meeting.

Mr. Scheri also reported that Mott MacDonald has prepared draft contract documents for Contract No. 265 for the replacement of the gates in Aeration Basins 1, 2 and 3. The contractor would provide all materials and labor for the project. The only thing remaining from a technical standpoint is the sequence of the construction. He has discussed the processes for the contractor to follow for de-watering and removal of sludge with Mr. Schilling. Mott MacDonald is drafting up the procedures for review. Mr. Schwab asked what the engineer's estimate would be for the project. Mr. Scheri responded that Mott MacDonald is estimating about \$350,000.00. Funding for the project was discussed. The project would be budgeted under Renewal and Replacement.

The Engineer's Report for the month of April was accepted on a motion offered by Mr. Schwab, seconded by Mrs. Michetti and the affirmative vote of members present.

Mr. Schilling noted that the word emergency should be omitted on the meeting agenda for Resolution No. 17-19. The agenda would be revised and reposted on the MSA's website.
